a monumental work of history that reveals the ottoman dynasty s important role in the emergence of early modern

Europe the Ottomans have long been viewed as despots who conquered through sheer military might and whose dynasty was peripheral to those of Europe. The last Muslim conquest transforms our understanding of the Ottoman Empire showing how Ottoman statecraft was far more pragmatic and sophisticated than previously acknowledged and how the Ottoman dynasty was a crucial player in the power struggles of early modern Europe. In this panoramic and multifaceted book Gábor Ágoston captures the grand sweep of Ottoman history from the dynasty's stunning rise to power at the turn of the fourteenth century to the siege of Vienna in 1683 which ended Ottoman incursions into central Europe. He discusses how the Ottoman wars of conquest gave rise to the imperial rivalry with the Habsburgs and brings vividly to life the intrigues of sultans, kings, popes, and spies. Ágoston examines the subtler methods of Ottoman conquest such as dynastic marriages and the incorporation of conquered peoples into the Ottoman administration and argues that while the Ottoman Empire was shaped by Turkish, Iranian, and Islamic influences it was also an integral part of Europe and was in many ways a European empire rich in narrative detail. The last Muslim conquest looks at Ottoman military capabilities, frontier management, law, diplomacy, and intelligence offering new perspectives on the gradual shift in power between the Ottomans and their European rivals and reframing the old story of Ottoman decline.

The early Arab conquests pose a considerable challenge to modern-day historians. The earliest historical written tradition emerges only after the second half of the eighth century, over one hundred years removed from the events it contends to describe and was undoubtedly influenced by the motives and interpretations of its authors. Indeed, when speaking or writing about the past, fact was not the only nor even the prime concern of Muslims of old. The Arabic historic tradition and the early Islamic conquests presents a thorough examination of Arabic narratives on the early Islamic conquests. It uncovers the influence of contemporary ideology, examining recurring fictive motifs and evaluating the reasons behind their use. Folklore and tribal traditions are evident throughout the narratives which aimed to promote individual, tribal, and regional fame through describing military prowess in the battles for the spread of Islam. Common tropes are encountered across the materials which all serve a central theme: the moral superiority of the Muslims which destined them to victory in God's plan, offering a key to the state of mind and agenda of early Muslim writers. This critical reading of Arabic texts would be of great interest to students and scholars of early Arabic history and literature as well as a general resource for Middle Eastern history.

This book narrates the battles, conquests, and diplomatic activities of the early Muslim fighters in Syria and Iraq vis à vis their Byzantine and Sassanid counterparts. It is the first English translation of one of the earliest Arabic sources on the

early muslim expansion entitled *futūḥ al shām* the conquests of syria the translation is based on the arabic original composed by a muslim author muḥammad al azdī who died in the late 8th or early 9th century c e a scientific introduction to al azdī's work is also included covering the life of the author the textual tradition of the work as well as a short summary of the text's train of thought the source narrates the major historical events during the early muslim conquests in a region that covers today s lebanon israel palestinian territories jordan syria turkey and iraq in the 7th century c e among these events are the major battles against the byzantines such as the battles of ajnādayn and al yarmūk the conquests of important cities including damascus jerusalem and caesarea and the diplomatic initiatives between the byzantines and the early muslims the narrative abounds with history and islamic theological content as the first translation into a european language this volume will be of interest to a wide range of readership including muslim and christian theologians historians islamicists byzantinists syrologists and arabic linguists
